

# 0.5 Gallon

## FOR THERMAL AND GLASS SERVERS

### POUROVER COFFEE BREWERS

CBS - 2121-p  
0.5G Pourover coffee brewer  
for thermal servers

The **0.5G CBS-2121 Series Pourover Coffee Brewers** are the solution for small venue operators who need a way to offer guests, employees, or customers a fresh cup of coffee. The simple design allows for any staff level to make brewing a single pot of coffee quick and efficient for a busy behind-the-counter coffee service or a unique self-serve, guest experience. Elegant front-of-house looks and reliable performance make these cost-effective coffee brewers a great fit for your diner, office break room, coffee shop, or dining hall.

#### Self-Adjusting Warmers with Temperature Limiting Technology (CBS-2121-PW)

Resists overheating and maintains optimal serving temperature. Saves energy and helps preserve freshness (unlike some competitors' models that continuously heat).

#### Dedicated On/Off Switch

Lighted switch located on front panel for easy access and power control.

#### Ready LED Light

Bright green LED illuminates when ready to brew.

#### Simple Switch Interface

Dedicated switches with icons for top and bottom warmers.
